

INDIANS OF SOUTH AMERICA NEGLECTED

Their Condition Beginning to Engage Attention of Missionary Workers.

The Missionary Review of the World in a recent issue printed the following outline of a progressive missionary campaign for Latin America: Among the most neglected people of the world are the Indians of South America. Very little Christian work has been done among them especially by Protestant organizations. In view of the encouragement to all mission work by the Interchurch World Movement, and renewed earnest purpose on the part of all Boards and their missionaries to push the work of evangelization to a successful victory the Committee on Cooperation in Latin America called a conference in New York, January 18th and 17th, to consider the needs of these neglected tribes.

Missionary work in this field in the past has been done chiefly among those of the lower and middle classes. The time has come when the evangelization of Latin America will be greatly hastened by the adoption of special measures for reaching the cultured and influential classes. The conference urged the cooperating Mission Boards to provide a fund of \$105,000 to support lectureships on evangelistic and apologetic subjects for these classes of people in appropriate halls in large centers.

A most delicate and difficult part of the program of evangelism is that which must provide for carrying the Gospel message to the women of Latin America. The women of the cultured classes are very exclusive; those of the middle class spend their lives largely in the seclusion of their homes; and the women of the lower class are interested only in the things to which they are accustomed in the daily round of their lives. The majority of the women of all classes are religious, and are a powerful force which is holding many of the men to the Roman Catholic church. One effective way of reaching these women is through Christian literature.

The churches are under obligation to undertake on a scale never before attempted the evangelization and Christian education of aboriginal Americans of whom there are not less than fifteen million full-bloods between the United States and Cape Horn, to say nothing of the many millions more who are largely of Indian blood. The most trustworthy data available indicate that there are in

Latin North America 7,015,800 full-blood Indians and in Latin South America 8,922,000. More than half of these are the direct descendants of Americans who had developed a remarkable civilization before the days of Columbus. In spite of four centuries of disinheritance they are an indispensable factor in the final development of most of the Latin American nations. In the next five years 147 workers from the United States ought to be established at 40 strategic centers in Latin America with a considerable number of branch stations and with many cooperating workers born in the countries under consideration. It is estimated that the cost of such an undertaking in the next five years would not be less than \$3,419,690.

Medical work in Latin America should be very greatly enlarged and Boards having work in Latin America should be encouraged to study more definitely the need for medical work in their respective fields and begin as early as possible such medical work as may seem to be particularly needed.

In regard to the great unoccupied fields in South America the following Boards are urged to assume responsibility for the occupation of the fields mentioned, along the lines of the Five-Year Program.

For Venezuela, the Northern Presbyterian Board.

For Peru the Northern Methodists. For Ecuador and Southern Colombia, the Northern Baptist Foreign Board, and the Christian and Missionary Alliance.

For Brazil, the American Board is requested to help the four American boards now in that field.

The following Boards are considering entering the needy fields of Santo Domingo and Haiti: Presbyterians in the U. S. A., Methodist Episcopal, Congregational and Disciples.

The next step in the program is the Conference in Guatemala, City which is to be held in March.

FRECKLES

March Worst Month for This Trouble. How to Remove Easily.

There's a reason why nearly everybody has freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine, double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all summer and spoil an otherwise beautiful complexion. Your money back if Othine fails.

FORMER EMPEROR IS VERY POOR MAN

Also He is Not Very Troublesome the Dutch Believe.

(By Associated Press) THE HAGUE, March 26.—Dutch officials claiming to know the real financial condition of former Emperor William of Germany are amused at reports from Berlin that William gave support to the reactionary revolt on March 13.

"In reality the former emperor is virtually a poor man," officials told the Associated Press today. "There is a question whether he has enough money to pay Count Bentinck, owner of the castle at Amerongen where William has been staying since November, 1918."

According to another official, in negotiations between William and the Dutch government since the former's arrival in Holland, William has displayed anything but an heroic attitude.

So anxious has he been to secure Holland's protection he has been glad from the very start to give a pledge not to participate in political intrigues. It is said this pledge has been renewed, but whether the renewal was written or oral officials declined to say. It is known, however, that it was originally oral. "We are confident that he will keep his pledge," said one official.

Easter Parade

ONLY a few more days until men, women and children will don their best apparel and join the throngs of Easter promenaders. Some will wear new things but some will make last year's garments serve them again this year. The latter would be a very sensible plan—just send your old garments to our modern plant and we will clean, dye, press and mend them so they look like new. Even if you will have new things to wear at Eastertime it would be wise to preserve their newness by sending them to us frequently for a thorough going over.
